WE ARE OCCUPYING

Luk_19:13 And he called his ten servants, and delivered them ten pounds, and said unto them, Occupy till I come.

We have totally moved all of our ministries onto the property and are now occupying the buildings...praise the Lord NO MORE RENT!!!!! We are even meeting in the church as you can see. Our first service we had 80 Sunday morning without promotion or advertising except for thousands of tracts which we distribute each week. We are having tremendous services and the Lord is blessing greatly. Although the buildings are far from being finished we are roughing it smoothly. In another photo you can see the new banner across the front of the church. All the heavy construction is done now we just need to finish the job. Please pray the good Lord helps us to finish the job...Bob Jones Sr. would be so proud of us.

We had a land beautification day (some call it a work day...how mundane) on the property the Saturday before our first meeting in the church building. You can see the skilled labour we employed...she is a little dreamboat.

Our partner, Greg Stedman rounded up two new ministries...notice all the young people holding Bibles...these belong to a special educational group sponsored by a unility company hear. Eden, one of our members is to the far left. She is employed by the company and she made the arrangments. Bro Stedman also gathered all the security guards where he lives and made opportunity to preach to them for a few minutes once a week. You've heard me say it many times that we have more ministries than ministers to operate them...PTL for opportunities to preach. I remember when I had none.

The public schools have opened up to us again. We are ministering in 12 fifth and sixth grade classrooms in a school just a mile from our property. With 50 students per classroom you do the math. We have 50 uninterrupted minutes to minister just about any way that the Lord pleases...PTL. Here I am in one of the classrooms...talk about generation gap...gap...gap...gap. Ha.

The local high school is just half a mile from our property and we took 7 of our people to pass Chick tracts to the students at the end of their school day. As fast as we could hand them out we still missed very many as they exited. That's Asia...many people...they just need to get saved. I did lead one young man to the Lord last week as he sat in the part while our publick preaching was in action. Pray for Algin.

And finally, as you can see from the "shoes-off" photo....our Christian school is in session...50 this year. Doing what we can while we can where we are...
