

Act 2:32 This Jesus hath God raised up, whereof we all are witnesses.

THE MINISTRY

We are still in Romania for another two and a half weeks but are faithful to teach our people, students and family to be witnesses. Notice the photos that show Mary Bethany with a group of children testifying to them that God hath raised up Jesus.

Then notice Bonnie Shell, wife of Kyle Shell, giving testimony of the same to an English speaking Romanian man. Bonnie and her husband are students from Alabama in our Summer Bible Institute. They are on their way to tell the lost tribes of New Guinea the good news that Jesus is not dead but is alive and well.

SCHOOL OF BIBLICAL MINISTRY

We will land in Iligan City, Philippines on January 3, 2012 and immediately begin making inroads to accomplish the training of young men to minister. We will ground them throughly in the truth of God while making the main thrust **THE MINISTRY**. Anyone familiar with the PI knows it is one of the last remaining harvest fields in the world today. When it comes time for a **WISE FARMER** to harvest He hires more help. There is much need of fruit pickers in the PI and we plan to raise up a school to train fruit pickers. We desire (Ps. 37:4) to provide all the Bible training and physical necessities of life freely to these ministry students. They will work to earn their keep but they will work in the ministry. There are more open places to preach than there are ready preachers. We want to fill ALL of these open opportunities with skilled Bible ministers.

ministry

MORE MINISTRY

In another picture Mary has a man asking Mary what Jesus could mean to him personally. Soon Adrian (one of our good men) comes to her aid. Finally Anna, one of our fine church ladies and an excellent and faithful witness gives the good news of the resurrection to a gentleman.

A MINISTERIAL PERFORMANCE

Eric Broadway, another student in our SBI from Alabama, gives a performance in the ministry with a backup from the Filarmonica Brasov. We forgot to take up a collection but it wouldn't have amounted to much.

THE OMNIPRESENT POLICE

It seems like the police are ever present. This particular time they were very troublesome. They threatened, grabbed, pushed, brought up reinforcements, approached us three different times, they conducted themselves obnoxiously...and then.....they left and we finished our meeting. In seven years we have never been shut down. PTL.
