

THE ENDS OF THE EARTH

Psa_48:10 According to thy name, O God, so is thy praise unto the ends of the earth: thy right hand is full of righteousness.

There is quite a study on this phrase in the Bible. The Bible includes 28 occurrences and the knowledge of what HAS taken place and what IS taking place at the ends of the earth would benefit any Bible student. As there are lightnings and thunders and rain at the ends of the earth so the Lord has commissioned us to bring praises to the Lord from there.

This past week our students traveled to what many would call “the ends of the earth” to preach and teach the precious Words of our Lord. Oh, I know there are more remote places where they have never heard anything about the Lord, but this place also qualifies.

The village of Kalihawan is an hour’s hard walk beyond the possibility to drive. Ten of our Bible college students and grads spent 5 days there last week and none of them wanted to come home. For some it was a return visit requested by the people and leadership of the village from last year and you can rest assured that this will remain an annual event.

They took donated school supplies for the public school there and lots of used clothing and various useful gifts. They held street meetings in the large cities as they passed through going and coming.

The police prohibited the use of the sidewalk because of crowds so they, on their own climbed on top of the van and held the banner and preached. They held many Bible studies and training sessions in the village while they were there. Several were saved. The pictures help tell the story...enjoy.

YES...GRADUATION IN MARCH

The school year here runs from June through April so our Christian school held graduation the last week of March and will begin again in June. We had 72 students this year and from the evaluations they did pretty well. Some will begin summer school next week. I never graduated from kindergarten nor elementary school, but this seems to come with the times and culture of this day. I never recieved a trophy for last place in T-ball either.

ATTENTION...***ATTENTION... HELP A KID ...SPONSORSHIP

We had 14 people who sponsored a qualified child's tuition last year and what a blessing it was. Public school here is a bad joke and it is a great advantage and opportunity for an underprivileged child to have this giant push in their lives. Eight of these sponsors have signed up for another year and some have already sent the funds. We are very picky as to what child actually qualifies for sponsorship, and we would be happy to answer any questions you may have if you are interested. For an entire year a sponsorship for one student here in a private Christian school with a very high standard of academics and discipline is on \$500. There are still some openinings so let us hear from you.

ONLY IN THE PHILIPPINES

Motor cycles here are like fleas on a poor dog. Everybody and their dog rides one.

Having too much fun serving the Lord in a foxhole in the Philippines.
